

#### Local Government Finance Reform

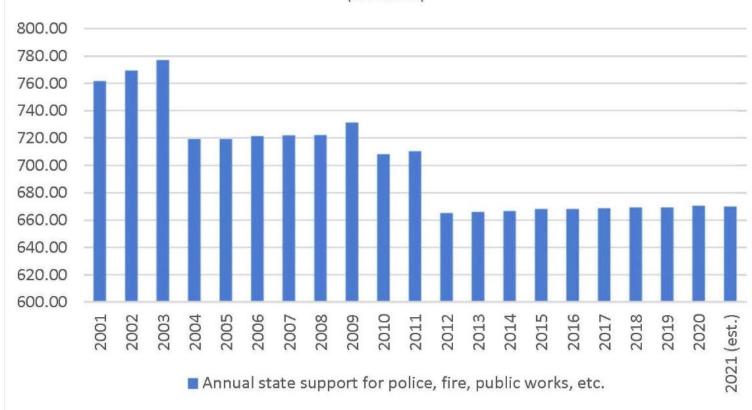

Mayor Emily McFarland
CARW Legislative Day – April 26, 2023

#### The Basics

- Cities/villages in Wisconsin are funded in two major ways:
  - Property taxes
  - State aids
    - Shared revenue
    - Expenditure Restraint
    - Misc. revenues (transportation aid, computer aid)

(In Millions)

Source: Legislative Fiscal Bureau, 2019-2021 Budget Summary https://docs.legis.wisconsin.gov/misc/lfb/budget/2019\_21\_biennial\_budget/

# The Basics

#### Expenditure Restraint (ERP)

- Provides a financial payment in exchange for restraining your expenditures
- In 2016, the city's ERP limit was \$109,689 and our health insurance premium alone rose \$191,611
- In 2017, the city's ERP limit allowed for a 1.2% increase; this was the year we discussed turning off every other street light to save around \$250,000

#### **City of Watertown**

#### **EXPENDITURE RESTRAINT**

Below is a summary of the General Fund Budget for last decade with the allowable increase to qualify for Expenditure Restraint Payments. This annual revenue source for the General Fund averages \$425,000. Participation in the Expenditure Restraint Program is voluntary. To continue to qualify for payments, the City must keep the increase in General Fund budgeted expenditures below a percentage determined by the combination of increase in Consumer Price Index as well as a growth factor that is dependent on the City's net new construction.

RUDGET

YEAR	GENERAL FUND	ALLOWABLE	ACTUAL	CHANGE
2013	\$15,387,856	2.4%	1.30%	\$203,385
2014	\$15,546,213	2.0%	1.03%	\$158,357
2015	\$15,824,611	1.8%	1.79%	\$278,398
2016	\$15,934,300	0.7%	0.69%	\$109,689
2017	\$16,124,600	1.2%	1.19%	\$190,300
2018	\$16,525,000	2.6%	2.48%	\$400,400
2019	\$17,019,051	3.1%	2.99%	\$494,051
2020	\$17,459,202	2.6%	2.59%	\$440,151
2021	\$17,788,817	1.9%	1.89%	\$329,615
2022	\$18,371,317	3.3%	3.27%	\$582,500
2023	\$19,357,439	7.9%	5.37%	\$986,122

## The Basics

- Cities/villages are restrained in two major ways:
  - Levy limits- a limit is set and then is difficult to move
    - A municipality is allowed to increase its levy over the amount it levied in the prior year by the percentage increase in equalized value from net new construction.
      - If no new construction occurred in your community, then your allowable levy increase is zero percent.
  - Inability to generate substantial revenue
    - Limitations on utilities
    - Limitations on sales tax; counties can issue this tax

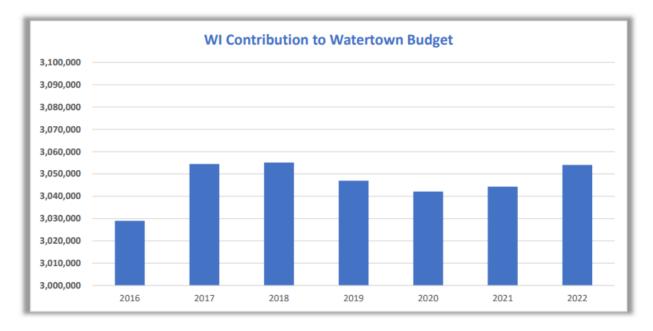

### How Did We Get Here

- The funding level for county and municipalities has declined
- The model is old and hasn't been adjusted in a complete way
  - Created in 1911 with the plan to provide 90% of the revenue back to local gov; today that is less than 7%
  - This results in an overreliance on property taxes

#### **WI Contribution to City**

The net increase from 2016 to 2022, a seven-year period, is only \$25,048 more WI contribution.

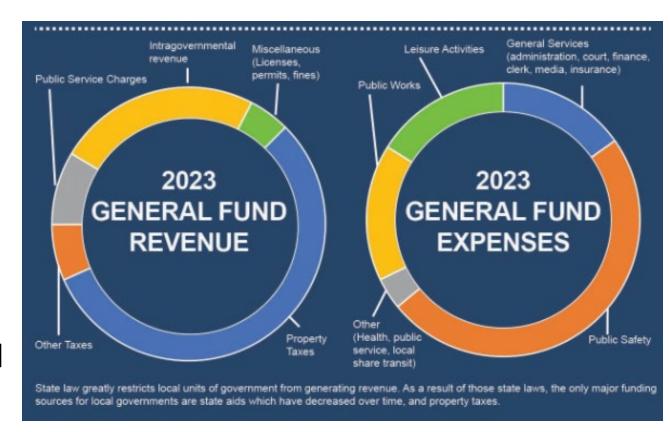

## Why It Matters

- Overreliance on property taxes limits the abilities of cities/villages
- Amenities that your customers are seeking become difficult to fund
- The financial partnership developers are seeking becomes incredibly difficult to manage
  - This leads developers to other municipalities that can  $\rightarrow$  increases their new construction  $\rightarrow$  allows them to raise their levy  $\rightarrow$  allows them to grow and others not
  - This has been the case, but now those municipalities are hitting their literal boundaries and development is getting difficult

## Why It Matters

- Current system is making basic services that developers and their customers expect, difficult to manage and maintain
  - Police, fire, road improvement, etc.
- Market demand shifts; cities are the nucleus of development and we're functioning with decades old financial capacity

Municipalities are HOME.

## How Do We Fix It

Create a plan that is growing, sustainable and more

Create a plan that lessens our reliance on property taxes

Current discussions in the legislature and in the Governor's Office

# The Important Role You Play

Advocacy: share your personal experiences as a professional and as a resident

 Education: tell others in your network how critical it is to support municipalities

• Encourage: encourage that one call, text, or mention in a meeting

 Support: your local municipalities are doing their best to make it all happen
